

Magnetic End Effector

275 kg pneumatic

An end effector that, when integrated in Quick-Lift System™, meets the highest standards of ergonomics, working environment, safety and efficiency.

Unique integrated mechanical, electrical, pneumatic swivel enables continuous rotation of the end effector.

Easy to use, thanks to outstanding responsiveness, regardless of load weight.

Exceptional safety is achieved using our intelligent control systems.

High cost efficiency through high reliability and long durability.

A strong solution for quick and easy handling.

Magnetic End Effector

275 kg pneumatic

The figures are to be seen as indications and will vary depending on lifting objects.

TECHNICAL DATA

Lifting Capacity	Maximum lifting capacity varies depending on lifting object shape <i>Note: The lifting capacity is reduced if the lifting objects center of gravity is eccentric</i>	
Steel plate	Thickness 25 mm	300 kg
	Thickness 20 mm	270 kg
	Thickness 15 mm	210 kg
	Thickness 10 mm	150 kg
	<i>Note: For steel plates <25 mm magnetism can occur underneath the plate.</i>	
Round steel	ø 60-250 mm, Maximum length 1500 mm Maximum weight 135 kg	
Temperature	Maximum temperature on lifting object 50° C.	
Product weight	21 Kg / 46 lbs	
Air supply	Clean dry air, filtered, pressure 6,0-8,0 Bar	
Safety	3x safety has to be tested on each lifting object
