

External handle

to be used together with Quick-Lift Systems™ Control box

An external handle that, when integrated with Quick-Lift Systems™ control box, meets the highest standards of ergonomics, working environment, safety and efficiency.

Easy to use thanks to an outstanding reaction, regardless of load weight.

Easily accessible buttons for various functions.

Offers a versatile solution for end effectors together with Quick-Lift Systems™ Control box.

Costs effectively reduced through high reliability and durability.

A strong and safe solution for quick and easy handling.

For customized end effectors and to be used together with Quick-Lift Systems™ Control box for mechanical end effectors or Quick-Lift Systems™ Control box with pneumatic 5/2 valve.

External handle

for built-in end effectors

Description	Part.no	Length mm	Weight kg
Standard length	012897	L = 245	1,2
Long	012899	L = 400	1,6
Extra Long	012902	L = 700	2,1

TECHNICAL DATA EXTERNAL HANDLE

Load capacity	max. 300kg / 660 lbs
Safety	High degree of safety is achieved using our intelligent control systems
Button functions	<p>Emergency stop.</p> <ul style="list-style-type: none"> - Upper left button: For toggling between power save mode and operating mode. - Upper right button: For activating auto balance mode. - Lower buttons: Grip and release functions
